**Topic:** Nickle Zinc Battery Technologies

**Description:** Dan Lambert, Product Manager for Zinc Five, will discuss the new Nickel Zinc battery chemistry as a greener and more sustainable alternative to Lithium Ion and other battery chemistries. Anyone designing, using or selling medium size or larger UPS systems should be very interested in Dan's presentation.

**Speaker:** Dan Lambert has over forty years of commercial and industrial electrical experience and has worked with AC and DC power systems, with a primary focus on mission-critical power systems. Working with stationary battery systems since 1985, he has worked with many battery chemistries and has contributed to large scale energy storage analysis projects, as well as testing other battery storage systems. Dan is currently a member of IEEE Power and Energy Society serving as the Chairperson for the IEEE Energy Storage and Stationary Battery (ESSB) Committee's IEEE 1679.4 Alkaline Chemistries Working Group and as a member of the ESSB Codes and Standards Task Group. He is also a member of the Batticon Conference technical Committee.
